Dear Vin:

It was very nice speaking to you on Wednesday, September 15, and I am looking forward to our meeting on October 26, 1982. At that time, I will show you our manuscript detailing the comparative periodontal condition of nonsmokers, cigarette smokers and cigar/pipe smokers.

In accord with our discussion regarding the possibility of support from the Council for Tobacco Research for the proposed Symposium on Clinical Geriatric Dentistry, I have attached a tentative agenda. Of particular interest may be the presentation by Dr. Keller on the morning of Day 1. Since this agenda has not been finalized, any suggestions you have which might improve the program would be appreciated.

Finally, in accord with our discussion, it would be most appreciated if the Council for Tobacco Research could provide some financial support for the "Symposium". A donation ranging from \$2,500 to \$5,000 would be more than adequate. All support would be acknowledged in both the program and the subsequent publication of a book.

Sincerely,

A handwritten signature in dark ink, appearing to read "Howard".

HOWARD H. CHAUNCEY, Ph.D., D.M.D.
